Volume contents

Vol. 17, No. 1, February 1991

Absence of effects of thymopentin on murine host resistance to Listeria monocytogenes
B. Rüttner, T. Hauser, T. P. Leist & R. M. Zinkernagel 1

Deletion of self-reactive T cells in the donor-derived T cells but not in the host-derived T cells in fully allogeneic radiation chimeras
M. Ogimoto, Y. Yoshikai, G. Matsuzaki, S. Ohga, K. Matsumoto & K. Nomoto 11

The effect of the genetic background on the development and function of accumulating YE1/19.1$^+$ cells in *LPR* mice
D. A. Kaminski & J. D. Waterfield 23

Ultrastructural studies of mouse thymic reticulum
B. Nabarra & I. Andrianarison 39

Letter to the Editor

Atypical renal infiltrates in a case of type 1 malignant thymoma
D. J. Williams, S. Lane & J. M. Hopkinson 63

Vol. 17, No. 2, March 1991

Thymectomy in ulcerative colitis: A report of cases over a 13 year period
M. Tsuchiya, T. Hibi, M. Watanabe, M. Ohara, H. Ogata, Y. Iwao, N. Watanabe, S. Aiso, H. Asakura & H. Yoshimatsu 67

Organization of thymic epithelial cells in cyclosporin-treated rats. Light microscopic immunohistochemical study
Ž. Milićević, M. Čolić & N. M. Milićević 75

Histology of transplantable murine epithelial tumors infiltrated with immature T lymphocytes: Neoplastic analogues of the thymus
G. P. Hoot, F. A. Harrod & J. R. Kettman 81

Effect of interleukins and anti-CD3 monoclonal antibody on the proliferation of thymocytes from irradiated mice
R. Daculsi, E. Legrand, D. Vaillier, J.-F. Duplan & B. Guillemain 97

Ultrastructural observations on cytodifferentiation of thymic cystic cells of chick embryo
A. S. Chan 115

Letters to the Editor

Do active substances of thymus influence the processes of aging? IV. Kidney morphology in aging mice treated with embryonal and early fetal thymic calf extracts (ETCE) and mature thymic calf extracts (Thymex L and TFX)
J. Czaplicki, B. Błońska, A. Klementys, E. Klimacka, M. Č. Pešić, H. Grzybek & B. Brandys 123

Structural changes in the thymus gland of turtles following testosterone treatment
A. Varas, A. H. Saad, M. Torroba & A. Zapata 129

Instructions to Authors 133

Vol. 17, No. 3, May 1991

Proliferation and activation of human mononuclear cells induced by ionomycin in a serum-free medium
H. Jouishomme & D. Rigal 137

Biochemical and immunohistological identification of thymosin alpha-1 in MCF-7 breast cancer cells
K. K. Oates & M. C. Coss 147

Distribution of anti-keratins and anti-thymostimulin antibodies in normal and in Down's syndrome human thymuses
M. Aita & A. Amantea 155

Inhibitory effect of 17β-estradiol on thymocyte proliferation and metabolic activity in young rats
T. Aboussaouira, C. Marie, G. Brugal & S. Idelman 167

Purification and partial characterization of an avian thymic hormone
B. Barger, J. L. Pace & W. L. Ragland 181

Letter to the Editor

Age-related modification in the thymus of rats and mice: an *in vivo* study by magnetic resonance
A. Sbarbati, G. Balercia, A. Baldassarri, F. Leclercq, K. Antonakis, A. Boicelli & F. Osculati 199

Vol. 17, No. 4, June 1991

Thymic epithelial cell transplantation in patients with acquired immunodeficiency syndrome
J.-M. Dupuy, N. Gilmore, H. Goldman, C. Tsoukas, D. Pekovic, J.-P. Chaus-

seau, R. Duperval, M. Joly, L. Pelletier & Y. Thibaudeau 205

Differentiation and maturation of macrophages into interdigitating cells and their multicellular complex formation in the fetal and postnatal rat thymus
L. Hsiao, K. Takahashi, M. Takeya & T. Arao 219

Myoid and epithelial cell differentiation in myasthenic thymuses
A. Żółtowska 237

Letters to the Editor

In vitro thymopentin modulation of mitogen responsive T-cell precursor frequency
C. Caruso, G. Candore, M. Assunta Modica, C. Di Giulio, A. Ingrassia & G. Di Lorenzo 249

Effect of hydrocortisone on the axial organ of the sea star Asterias rubens
M. Leclerc & M. Bajelan 253
